

Play a Game

Start 

Get a .

Get 5 red squares for one player.

Get 5 blue squares for the other player.

Take turns.

Try

Toss the . Place it in the space below.

Subtract that number from 8. Say the difference.

If you see the number sentence in a different order on the game board, cover it with a square. Repeat until one player wins.

$$8 - \boxed{\begin{array}{c} \text{Put} \\ \text{cube} \\ \text{here} \end{array}} = ?$$

Win with Five

$6 = 8 - 2$	$7 = 8 - 1$	$4 = 8 - 4$
$3 = 8 - 5$	$2 = 8 - 6$	$3 = 8 - 5$
$5 = 8 - 3$	$7 = 8 - 1$	$6 = 8 - 2$

To win, be the first player who covers 5 game spaces.
